The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant cancer, for which the doctors said an operation was the only hope. The operation was a severe one, as it was necessary to cut down to the jaw bone and scrape it. Before a great while the cancer returned, and began to grow rapidly. We gave him many remedies without relief, and finally, upon the advice of a friend, decided to try S. S. S. (Swift's Specific), and with the second bottle he began to improve. After twenty bottles had been taken, the cancer disappeared entirely, and he was cured. The cure was a permanent one, for he is now well and has never had a sign of the dreadful disease to return.

as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is guaranteed purely vegetable and contains no potash, mercury, or other mineral.

FARM AND STOCK NOTES.

In some parts of Norway corn is still used as a substitute for coin.

Good cows are never found in neighborhoods where the practice of using any kind of a little scrub bull as a sire is followed.

Do Not Be Imposed On.
Always insist on getting Foley's Honey and Tar, as it is positively, absolutely and unqualifiedly the best cough medicine. Accept no substitute.

Hugh Bell, of Circleville, Ohio, bought of various Garrard county parties eight ear-loads, consisting of 200 fine cattle at 4c per pound. The stock was shipped via the L. & N. to Ohio, where they will be fed for export.

No unpleasant odor or taste will result in the milk from cabbage fed to cows just after milking, night and morning. Generous quantities of outside leaves and loose heads will show great results in increasing the milk supply.

Three Doctors in Consultation.

From Benjamin Franklin.
"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., theory) says is best is to be chosen in the last place. But if you can get Dr. INCLINATION, Dr. EXPERIENCE and Dr. REASON to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs opening the secretions and restoring the system to a natural and healthy condition. My wife suffered more in ten minutes with either of her other two children than she did altogether with her last, having previously used four bottles of 'Mother's Friend.' It is a blessing to any one expecting to become a MOTHER, says a customer. HENDERSON DALE, Carmi, Illinois.
